## **TAHSN Hospitals Recognized Among the Top 40 Research Hospitals in Canada**

For the eleventh year in a row, all nine Toronto Academic Health Science Network (TAHSN) hospitals that are fully affiliated with the University of Toronto were named among [Canada's Top 40 Research Hospitals](#).

These nine hospitals have a combined research expenditure of \$1.2 billion, and represent 39.1 per cent of the expenditure of the 40 research hospitals in the list. These hospitals, together with the University of Toronto and [fellow TAHSN hospitals](#), comprise Canada's leading health research hub.

TAHSN hospitals ranked first in each major category of measure - the University Health Network topped this year's list overall in terms of research spend, the Hospital for Sick Children ranked first in research intensity as a percent of organizational spend, and Baycrest ranked first in research intensity based on amount spent per researcher.

Having significant representation on this list, which is compiled annually by Research Infosource Inc., is a testament to TAHSN's collective leadership and impact in health research, and the incredible contributions of individual research institutes and researchers across the network.

The full list of TAHSN hospitals recognized this year, listed in order of research spend, include:

- University Health Network
- Hospital for Sick Children
- Sunnybrook Health Sciences Centre
- Sinai Health
- Unity Health Toronto
- Centre for Addiction and Mental Health (CAMH)
- Baycrest
- Women's College Hospital
- Holland Bloorview Kids Rehabilitation Hospital

---

### About Toronto Academic Health Science Network

The Toronto Academic Health Science Network (TAHSN) is a dynamic network of academic health organizations providing leading edge research, teaching and clinical care. TAHSN serves as a leader in Canadian healthcare and is one of the largest, most productive academic health centres in North America as evidenced on a number of dimensions including academic standing, research activity/output, visionary collaboration and contribution to healthcare innovation. TAHSN is comprised of the University of Toronto and its full and associate affiliated academic hospitals, each of which hold national and international standing as leaders in their particular fields.
