Artificial Intelligence in Nursing: Innovation, Impact and Accountability

LIVE WEBINAR

May 11, 2026 | 2:00 — 3:00 p.m.

A panel discussion featuring experts in nursing, informatics, data science and law to explore the impact and considerations of integrating AI into nursing practice.

This event is hosted by the Toronto Academic Health Science Network (TAHSN) to recognize the immense contributions of our nurses and celebrate their impact on our health-care system.

Moderated by:

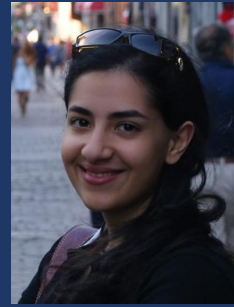

Bren Cardiff, Chief Nursing Informatics Officer,
Hospital for Sick Children

Opening and closing remarks by:

Terri Irwin, Executive Vice President, Patient Care
Services and Chief Nursing Executive, Trillium Health
Partners

Robyn Stremler, Dean, Lawrence Bloomberg
Faculty of Nursing, University of Toronto
